GETTING SHIT DONE LIKE  
THERE'S NO TOMORROW

#Donesday is a hackathon-style event for procrastinators to sit down and get shit done together like there's no tomorrow. We list our long-dreaded tasks on post-it notes. We spend 25 minutes working on them followed by 15 minutes helping each other (repeat the cycle till day end). And then we throw the "End of the world party" and celebrate our win over procrastination.
